Polarized Plug

This appliance has a **polarized plug** (one blade is wider than the other). As a safety feature to reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

Short Cord Instructions

A short power-supply cord is provided to reduce the risk of personal injury resulting from becoming entangled in or tripping over a longer cord. Extension cords are available from local hardware stores and may be used if care is exercised in their use.

How To Use George Foreman's Lean Mean Fat Reducing Grilling Machine

1. Before using the Grill for the first time, wipe the Grilling Plates with a damp cloth to remove any dust. Wash the drip tray in warm, soapy water. Rinse thoroughly and wipe dry.
2. **To preheat:** Use the Handle to close the Lid and plug cord into a 120V AC polarized outlet. Turn the Variable Temperature Control to High (H) then turn the Timer Control to set a preheat time of about 10 minutes. The LED light will go on and the Grilling Plates will begin heating. Allow unit to pre-heat for the set time. The LED light will remain on during use.
3. Use a "pot holder" to carefully lift the Handle and open the Lid.
4. Slide the grease catching Drip Tray under the front of the Grill.
5. Carefully place the items to be cooked on the bottom Grilling Plate.
6. Use the Handle to close the Lid.
7. The Variable Temperature Control allows you to select any heat setting between Low (L), Medium (M) or High (H). Adjust the Variable Temperature Control to your desired setting. See "Suggested Cooking Chart" on following page for specific details.
8. Turn the Timer Control to set the desired grilling time. The LED light will go on.
9. Allow the food to cook until done. (Consult the Cooking Chart and Recipe Section in this book.) **Do not leave Grill unattended during use!** During grilling, the Timer Control will count down the minutes. Once the time has elapsed, the Timer Control will "ding", the LED light will turn off, and the Grill will shut off automatically.
NOTE: Allow the Timer Control to automatically count down to 0 minutes. Manually turning the Timer Control to 0 minutes may damage the Timer mechanism.
10. When finished cooking, turn Temperature Control to Low (L). Disconnect the plug from the wall outlet.
NOTE: Some sparks may be visible while disconnecting from wall outlet. This is quite normal.
11. Use a "pot holder" to carefully lift the Handle and open the Lid.
12. Remove the food using the supplied spatula or a plastic or wooden utensil. Be sure to always use either plastic or wooden utensils so as not to scratch the non-stick surface. Never use metal tongs, forks or knives as these can damage the coating on the cooking plates.
13. When cool, the Drip Tray may be removed and emptied. **Be sure the liquid has cooled before removing Drip Tray.**

Grilling Hints and Tips

- Use tender cuts of meat for grilling.
- Marinate tougher cuts of meat to tenderize them before grilling.
- To avoid drying out meat and fish, do not pierce with a utensil.
- Adjust heat setting gradually and only as necessary. Cooking foods at too high a temperature can cause them to dry out.
- Better cooking results will be achieved with boneless cuts of meat, chicken and fish.
- If grilling more than one item, select foods of even thickness. This will promote consistent doneness and appearance.
- For grilling small portions, make sure meat is centered on Grill. When grilling larger portions, distribute evenly and allow one inch space between foods to promote uniform cooking.
- When grilling fish or chicken breast fillets, tuck extremely thin parts under to prevent overcooking.
- If food is under-cooked when removed from Grill, simply return to Grill for additional cooking time.

User Maintenance Instructions

CAUTION: To avoid accidental burns, allow your Grilling Machine to cool thoroughly before cleaning.

1. Before cleaning, unplug the Grilling Machine from the wall outlet and allow to cool.
2. ***Inside cleaning:*** Place the Drip Tray under the front of the Grilling Machine. Using the specially designed spatula, scrape off any excess fat and food particles. Wipe the plates with absorbent paper towel or a sponge. Run off will drip into the Drip Tray.
3. ***Stubborn build-up:*** Use a non-metallic scrubbing pad to clean the plates.
4. Empty the Drip Tray and clean with warm soapy water. Wipe dry.
5. ***Outside cleaning:*** Wipe with a warm, wet sponge and dry with a soft, dry cloth.
6. Do not use steel wool, scouring pads, or abrasive cleaners on any part of the Grilling Machine.
7. **DO NOT IMMERSE IN WATER OR OTHER LIQUID.**
8. Any servicing requiring disassembly other than the above cleaning must be performed by a qualified electrician.
9. Make sure to hold the top cover (Lid) by hand while cleaning to prevent accidental closing and injury.
10. Once the Grilling Machine is completely cooled and cleaned, the Power Cord may be wound using the Cord Storage area on the bottom of the unit. Do not put any stress on the cord where it enters the unit, as it could cause the cord to fray and break.

Recipes

NOTE: For all recipes, please remember to place Drip Tray in front of the Grilling Machine to catch drippings from the cooking process.

The Champ's Sausage Without Guilt

You can start your day with a sizzling sausage patty that not only tastes good, but is also good for you. This moist, flavorful sausage, served with a country-style biscuit, makes the complete breakfast. Choose ground turkey breast, which is lower in fat than ground turkey containing dark meat and skin. Turkey, especially the light meat, is a good source of niacin, which is an important B vitamin needed to maintain a healthy nervous system.

1 slightly beaten egg white
1/3 cup finely chopped onion
1/4 cup finely snipped dried apples OR
 1/2 cup finely chopped fresh red Delicious apple
1/4 cup seasoned bread crumbs
2 Tbsp. snipped fresh parsley
1/2 tsp. sea salt
1/2 tsp. ground sage
1/4 tsp. ground nutmeg
1/4 tsp. black pepper
1/8 tsp. cayenne pepper
1/2 lb. lean ground turkey breast

- In a medium size mixing bowl, combine the egg white, onion, dried or fresh apples, bread crumbs, parsley, salt, sage, nutmeg, black pepper, and cayenne pepper. Add the ground turkey and mix well.
- Shape the mixture into nine 2-inch wide patties.
- Preheat the Grilling Machine on High for 5 - 10 minutes. Place the patties on the grill. Close the Lid. Cook on Medium for 5 minutes or until the meat is no longer pink and the juices run clear, turning once or twice.
- Yield: 8 - 9 patties

This recipe is from "The Healthy Gourmet" (Clarkson Potter) by Cherie Calbom.

George's Sausage Texas Style

A spicy sausage with true Southwestern zip! These breakfast sausages are great served with a sautéed vegetable or fresh salsa and egg scramble. Buy 90% lean ground beef for the least-fat sausage. Ninety percent lean beef has 9 grams of fat with 4 of those grams being saturated fat; whereas 73% lean beef has 18 grams of fat with 7 of the grams being saturated.

1 slightly beaten egg white
1/3 cup finely chopped onion
1/4 cup seasoned bread crumbs
1/4 cup diced green chili peppers
1 clove (large) garlic, finely minced
2 Tbsp. snipped fresh cilantro
1 Tbsp. apple cider vinegar
1-1/2 tsp. chili powder
1/4 tsp. sea salt
1/8 tsp. cayenne pepper
1/2 lb. lean ground beef

- In a medium-size mixing bowl, combine the egg white, onion, bread crumbs, green chili peppers, garlic, cilantro, vinegar, chili powder, salt and cayenne pepper. Add the ground beef and mix well.
- Shape the mixture into eight 3-inch wide patties.
- Preheat the Grilling Machine on High for 5 - 10 minutes. Place the patties on the grill eight at a time. Close the Lid.
- Cook on Medium for 4 - 5 minutes or until the meat is no longer pink and the juices run clear, turning once or twice.
- Yield: 8 patties

George Foreman's PowerBurger

A flavorful hamburger that we think tastes even better than its all-meat cousin! It pays to eat meals that minimize meat. To reduce saturated fat in a typical burger, you can cut back on the amount of meat and make up for it with plant-based ingredients. Bread crumbs and chopped vegetables have been added in this recipe. You could also try cooked rice, other grains or cereal. In addition, choose whole wheat buns; they typically contain one less fat gram than regular or even reduced-calorie buns.

If you settle for nothing less than a cheeseburger, Swiss cheese is 1 gram lower in fat than Cheddar, American or Monterey Jack with 8 grams of fat versus 9 in each ounce of cheese. However, reduced fat cheeses like Cheddar or Swiss contain half the fat with 4 grams per ounce. Mustard contains 1 gram of fat per tablespoon versus a whopping 11 grams of fat in a tablespoon of mayonnaise.

Top your burger in healthful style with dark, leafy green lettuce, shredded cabbage, fresh cilantro, basil or spinach.

1/2 cup chopped vegetables such as yellow onions,
green onions, zucchini, parsley (can be sautéed)
1/2 cup seasoned bread crumbs
1 1/2 lbs. lean ground beef

- In a medium-size mixing bowl, combine the vegetables and bread crumbs. Add the ground beef and mix well.
- Shape the mixture into eight 4-inch wide patties.
- Preheat the Grilling Machine on High for 5 - 10 minutes. Place the patties on the grill eight at a time. Close the Lid.
- Cook on Medium for 8 - 9 minutes or until the meat is no longer pink and the juices run clear, turning once.
- Yield: Serves 8
